

DONKIN CERTUS VALVE INSTALLATION AND ACCESS SYSTEM

85/02

To complement the new Donkin Certus PE Valves AVK can now offer a range of Installation and Access Kits to suit all requirements. This gives the customer a range of kitting options from purchasing just the valve, right up to a fully inclusive kit containing all the components needed for a good quality and fully accessible solution, removing the possibility of poor Installation.

Features and Benefits:

- Base unit fits both DN32 and DN63mm valves.
- Sturdy construction prevents surface forces acting on the service pipe.
- Orientates the valve vertically to ensure easy access with a Tee Key.
- Prevents ingress of material blocking spindle access from the surface.
- Makes installation easy and more consistent.
- Kit options can save real life costs of installation.
- Tee Keys designed specifically for PE Valves
